APPLICATION FOR TEMPORARY MAIN POWER

Date of Application: _____
Application Approved: Yes No

Permit No: _____
Inspector: _____

THIS FORM MUST BE FILLED OUT COMPLETELY BEFORE IT WILL BE ACCEPTED

This application is to request Temporary Main Power connection to the structure. The structure is to be connected on a temporary basis only to facilitate the completion of construction. The structure **shall not be occupied until all work is completed and inspected by the Warren County Code Enforcement Department.** When the "Final Inspection" has been performed and passed, a permanent release will be submitted to the serving utility company and a "Certificate of Occupancy" shall be written. Only then can the structure be occupied. Any procedure different from the above is a violation of North Carolina State Building Administration Code.

1. If the Warren County Code Enforcement Department does not receive a request for a final inspection before the Temporary Main Power Request expires, or if the building is found to be or to have been occupied, we will immediately inform the serving utility company that we can no longer allow a connection to the structure and request that it be disconnected immediately.
2. The maximum time of connection to the structure is 90 days.
3. The owner and the contractors authorize the serving utility company to discontinue electrical service, without liability, upon notification by the Warren County Inspection Department of an occurrence set forth in (1) above.

Structure is to be occupied as a: _____

Number of day's temporary main power is requested _____ (90 max).
