The Surplus Property Process:

1. Once the property taxes on a particular property have been determined to be non-collectable, the property information is sent to the County's foreclosure attorney.
2. The attorney does the necessary title work and goes through the process of contacting the owners.
3. During notification through the certified mail process the owners are given the opportunity to pay the delinquent taxes and retain ownership.
4. If the owners do not pay the delinquent taxes the attorney goes before the court to get permission to sale the property.
5. After a judge approves the sale, it is auctioned on the courthouse steps to the highest bidder.
6. If there are no bidders the County becomes the owner by having a lien against the property.
7. The property can then be declared surplus by the Commissioners and authorized to be sold.

Approve Funds for Phase I Haliwa-Saponi Tribe Recreation Area Plan

TO: Warren County Board of Commissioners

THROUGH: Vincent E. Jones, County Manager

FROM: Dickie Williams, Parks & Recreation Director

DATE: July 29, 2020

RE: Approve Funds for Phase I Haliwa-Saponi Tribe Recreation Area Plan

Background

The Parks & Recreation Commission at their July 9th meeting reviewed a proposal for community recreation from the Haliwa-Saponi Tribe. The proposal seeks to improve the Haliwa-Saponi Recreation area, in a multi-phase renovation project. The Recreation Commission was supportive of the proposal and voted to recommend funding to support Phase 1 of the project. The proposal indicates that the initial phase of improving the walking trail is projected to cost up \$8,950.00.

Please see the detailed description of the Phase I project - Phase 1 addresses the walking trail with resurfacing. This process will include adding additional drainage, spray and screening for grass resistance, and crushed asphalt/cement and rolled surfacing. The walking trail is located at the multipurpose building on Capps Farm Rd. The current trail is gravel and the wish to make a more permanent area with less maintenance. The track is 7 years old and receives continued use, which has increased, due to with residents seeking additional ways to exercise during the Coronavirus pandemic.

The Haliwa-Saponi Tribe envisions their track allowing for public walks, runs and cycling.

Recommendation

I recommend that the County approve the use of FY 21 Parks and Recreation funding for satellite recreation projects for the Phase I Haliwa-Saponi Tribe Recreation Area Plan in an amount not to exceed \$10,000.

Approve Funds for Phase I Haliwa-Saponi Tribe Recreation Area Plan

Haliwa-Saponi Recreation Area Plan:

The Haliwa-Saponi Tribe submits the following proposal for community recreation.

We presently have a walking trail located at our Multi-Purpose building on Capps Farm Road. This trail has been in existence for over 7 years and continues to get use. The original trail was created through a small grant from Blue Cross Blue Shield of NC. The trail is a quarter mile and consists of gravel that we must continuously replace at least once a year. There is a large empty area within the interior of the trail that presently has a very small play area for small children. We would like to refinish our trail with something more durable requiring less maintenance and we would love to make better use of the interior area to create recreation space for all ages.

The Haliwa-Saponi Tribe envisions a track that allows for walks, runs and bicycles that is virtually maintenance free. We also envision children and adults enjoying the interior area of the trail with multiple recreational equipment such as swings, slides, climbing features, zip lines, volley ball and soccer possibilities.

We have 2 old greenhouses beside the trail which we would eventually like to turn into longhouses and create indoor recreation.

We feel this would be best handled in phases as discussed in a call meeting with Warren County. Attached please find our projected budget listing materials needed to complete our plan.

Thank you for your consideration for this project.

Authorize County Manager to purchase Motorola radio repeaters as a sole source purchase in an amount not to exceed \$175,000 for the Warren County Fireman's Association.

To: Warren County Board of Commissioners

Through: Vincent Jones, County Manager

From: Charla Duncan, Senior Assistant to the County Manager
Warren County Administration

Re: Purchase of VIPER tower equipment upgrades and subsequent donation to NC Highway Patrol

Background

Previously at your 2020 retreat, you were updated on the progress of necessary upgrades to equipment on VIPER towers in Warren County; these equipment upgrades are needed to allow all of the county's fire departments to access the VIPER network with the new radios the VFD's are receiving through the FEMA Firefighters Assistance grant. In the approved FY 21 budget for fire services, \$175,000 is included for the purchase of this equipment.

The Warren County Firemen's Association is unable to make the actual purchase of the equipment as originally intended due to not being a 501c3 (and therefore unable to be reimbursed for sales tax). Warren County can make the purchase with Motorola for \$173,125.45 using budget funds.

North Carolina Highway Patrol is willing and ready to receive the equipment as a donation. Once the donation is made, NC Highway Patrol will never ask to upgrade that equipment. The equipment becomes their asset and they will be responsible for maintenance and upgrades.

Recommendation

Authorize County Manager to purchase Motorola equipment (as a sole source purchase) for VIPER tower upgrades in an amount not to exceed \$175,000 for the Warren County Firemen's Association.

Approve declaration of the same equipment as surplus and authorize donation to NC State Highway Patrol for installation and maintenance for the Warren County Firemen's Association VIPER tower upgrade project.

Dear Valued Customer:

In March of 2020 North Carolina Governor Roy Cooper executed Executive Order #124 stating that due to the impact and potential severity of the COVID-19 virus local utility service providers were to be restricted from disruption of utility services due to nonpayment of delinquent utility bills as well as associated fees. Warren County Public Utilities is more than happy to cooperate with this executive order in an attempt to maintain a healthy environment across the county by providing a means to promote the practice of personal hygiene by frequent handwashing.

While Executive Order #124 mandated by Governor Roy Cooper restricted service disconnections for nonpayment of your delinquent water accounts during the COVID-19 event local governments are prohibited to grant debt forgiveness of your actual bill. This means that once Executive Order #124 is lifted (projected date 7/29/2020) you will be responsible for paying all outstanding balances on your water account.

In an attempt to mitigate the impact and financial hardship of your outstanding water account Warren County Public Utilities will be offering payment plans that will extend up to 6 months beyond the end of the current executive order. Information regarding the payment plan will also be included on your August monthly billing with all current monthly payments remaining due. Failure to meet your commitment for your payment plan along with nonpayment of current billing will unfortunately lead to service disconnection as well as associated fees currently outlined in our Rules and Regulations. If your water account is current then you have received this letter in error. We ask that you kindly disregard this notification.

Please contact our office and speak with Customer Service for assistance in setting up your payment plan if needed.

Approve Submission of Soul City EDA Proposal

MEMORANDUM

TO: Warren County Board of Commissioners

FROM: Vincent E. Jones, County Manager

DATE: July 30, 2020

RE: Approval of Economic Adjustment Assistance (EDA) CARES Act Grant submission and grant proposal

Background

The County has received a proposal from Professor Jeanne Milliken Bonds, Professor of the Practice, Impact Investment and Sustainable Finance, Kenan-Flagler Business School, University of North Carolina. Ms. Bonds has experience with the Federal Reserve and she works with Federal Legislators on national finance policies and legislation.

Because of her knowledge of Warren County and the County's history and economic prospects, she has proposed to 1) prepare an Economic Adjustment Assistance (EDA) grant proposal, aligned with regional Comprehensive Economic Development Strategy (CEDS) goals, to design and implement specific strategies to bring about economic change in response to continuous long-term structural economic challenges worsened by the COVID-19 pandemic; and, 2) Research and prepare proposals for additional opportunities from private philanthropic, corporate, government or a combination sources to support the development of a strategic marketing plan for Soul City.

Under the CARES ACT, we do not have to meet any matching requirements like a regular EDA proposal. It is hoped that the proposals will lead to a marketing plan for the redevelopment of Soul City and a Resiliency Plan for Warren County. Professor Bonds will attend your August Work Session to discuss this process in detail.

Marketing Soul City as an Innovation Hub and Positioning Warren County for Resiliency

James H. Johnson, Jr.
Jeanne Milliken Bonds
Kenan-Flagler Business School
UNC-Chapel Hill

Background

America's persistent racial inequities are once again front page and breaking news in media coverage of the disparate impact of the coronavirus pandemic and the nationwide protests over the senseless murders of unarmed blacks by the police and citizen vigilantes. To solve its race and structural racism problems, America needs a "new" New Deal, one that focuses laser like on fixing spaces and places in our economic system. Not just roads, bridges, airports, seaports, and broadband access issues, but also sick buildings—aging and structurally deteriorating houses, schools and public venues—that expose residents and the public to a host of environmental hazards (mold, mildew, asbestos and lead) that suppress the immune system and substantially reduce life expectancy.

In America, these problems are most evident in hyper-segregated and concentrated poverty communities. African Americans and other people of color disproportionately inhabit these areas, which are proving to be hotspots for coronavirus infections and deaths. A "new" New Deal also requires a comprehensive review of existing federal, state, and local government policies and regulations governing land-use as well as all types of development (residential, retail, commercial, etc.). Moving forward, all development and redevelopment projects must adhere to the triple-bottom-line-principles of sustainability. That is, they must minimize—to the maximum extent possible—adverse impacts on natural resources and the physical environment; adhere to principles of social justice; and, in the process, return equitable shareholder/stakeholder value.

We can leverage a host of "equity tools" to achieve these desired outcomes. The "new" New Deal for America must create an inclusive supply-chain management system that levels the playing field for historically underutilized businesses that aspire to access government contracts—in this instance, to fix the nation's deteriorating spaces and places, as well as address documented disparities in testing, contact tracing, and enforcing social distance measures in the coronavirus pandemic. However, we must not position supplier diversity in contracting and procurement solely as a compliance issue or legal requirement under equal opportunity laws. It also—and perhaps more importantly—must be framed as a strategic business imperative in an increasingly more diverse—racially, ethnically and socioeconomically—society and marketplace.

We know that minority suppliers are more likely than majority suppliers to hire minority workers. Thus, it is reasonable to surmise that an inclusive system of contracting and

procurement will address another critical issue: the enormous under-representation of people of color in some economic sectors like transportation and logistics.

Additionally, the “new” New Deal must dismantle barriers to economic participation in the American enterprise system. Many of the known barriers are the product of discriminatory policymaking, especially in the areas of crime and criminal justice, which disproportionately affect people of color, in general, and black males, in particular. By eliminating such barriers, we can begin to solve America’s inequality problem and rebuild the nation’s middle class in the process.

Finally, we need to mobilize collective ambition to execute successfully the “new” New Deal. There are two critical elements to building collective ambition around such a policy intervention: collaborative engagement of diverse stakeholders and disciplined execution of strategy. In the words of Jim Collins, author of “Good to Great,” we need to make sure every American—irrespective of political affiliation—is on the “new” New Deal bus, seated in the right seat and headed in the right direction to ensure successful implementation with fidelity.

Proposal

We propose to:

- **Prepare an Economic Adjustment Assistance grant proposal, aligned with regional CEDS goals, to design and implement specific strategies to bring about economic change in response to continuous long-term structural economic challenges worsened by the Covid 19 pandemic; and,**

Creating a Strategic Roadmap and Implementation Plan

(1) Devise an implementation strategy and plan for achieving resiliency; and
(2) develop key performance indicators and metrics to track efforts to achieve inclusive and equitable community development goals.

Properly designed and implemented, the proposed roadmap should create shared prosperity for both the jobless poor and the working poor at risk of being priced out of and displaced. It also should provide leaders and community groups with the civic entrepreneurial skills required to continuously forge mutually beneficial strategic alliances across the for-profit, philanthropic, and government sectors to weather and manage turbulence and uncertainty moving forward.

To deliver this work, we are seasoned experts with research and practical experience in urban policymaking, community development finance, and sustainable community development. Timeline

It will take approximately ten days to prepare a data profile and full EDA CARES ACT application, and to determine and frame two additional funding opportunities to pursue. **NCDOT PUMP STATION
Memo**

August 3rd 2020

Warren County Public Utilities currently operates two (2) Waste Water Pump Stations serving the N.C.D.O.T. Welcome Center on the South Bound corridor of Interstate I 85 in the Wise area. These stations are needed to carry waste water from the Welcome Center to the Warren County Regional Waste Waters Force Main on US Highway #1 in Norlina. Due to the expense reimbursement part of the agreement N.C.D.O.T. regulations require a written contract to be executed between the partners. This agreement has worked very well in the past as Warren County Public Utilities has been able to recover maintenance and materials cost associated with the operations of the two stations.

It is the recommendation of the Warren County Public Utilities Interim Director (Macon Robertson) that with County Attorney approval that the Operation and Maintenance agreement between Warren County and N.C.D.O.T. be executed.

**Approve Funds for Phase I - Haliwa Saponi Tribe
Recreation Area**

Richard “Dickie” Williams, Parks & Recreation

TO: Warren County Board of Commissioners
THROUGH: Vincent E. Jones, County Manager
FROM: Dickie Williams, Parks & Recreation Director
DATE: July 29, 2020
RE: Approve Funds for Phase I Haliwa-Saponi Tribe Recreation Area Plan

Background

The Parks & Recreation Commission at their July 9th meeting reviewed a proposal for community recreation from the Haliwa-Saponi Tribe. The proposal seeks to improve the Haliwa-Saponi Recreation area, in a multi-phase renovation project. The Recreation Commission was supportive of the proposal and voted to recommend funding to support Phase 1 of the project. The proposal indicates that the initial phase of improving the walking trail is projected to cost up \$8,950.00.

Please see the detailed description of the Phase I project - Phase 1 addresses the walking trail with resurfacing. This process will include adding additional drainage, spray and screening for grass resistance, and crushed asphalt/cement and rolled surfacing. The walking trail is located at the multipurpose building on Capps Farm Rd. The current trail is gravel and the wish to make a more permanent area with less maintenance. The track is 7 years old and receives continued use, which has increased, due to with residents seeking additional ways to exercise during the Coronavirus pandemic.

The Haliwa-Saponi Tribe envisions their track allowing for public walks, runs and cycling.

Recommendation

I recommend that the County approve the use of FY 21 Parks and Recreation funding for satellite recreation projects for the Phase I Haliwa-Saponi Tribe Recreation Area Plan in an amount not to exceed \$10,000.

ITEM # 11 (3 of 4)

Approve Funds for Phase I Haliwa Saponi Tribe Recreation Area

Richard “Dickie” Williams, Parks & Recreation

Haliwa-Saponi Recreation Area Plan:

The Haliwa-Saponi Tribe submits the following proposal for community recreation.

We presently have a walking trail located at our Multi-Purpose building on Capps Farm Road. This trail has been in existence for over 7 years and continues to get use. The original trail was created through a small grant from Blue Cross Blue Shield of NC. The trail is a quarter mile and consists of gravel that we must continuously replace at least once a year. There is a large empty area within the interior of the trail that presently has a very small play area for small children. We would like to refinish our trail with something more durable requiring less maintenance and we would love to make better use of the interior area to create recreation space for all ages.

The Haliwa-Saponi Tribe envisions a track that allows for walks, runs and bicycles that is virtually maintenance free. We also envision children and adults enjoying the interior area of the trail with multiple recreational equipment such as swings, slides, climbing features, zip lines, volley ball and soccer possibilities.

We have 2 old greenhouses beside the trail which we would eventually like to turn into longhouses and create indoor recreation.

We feel this would be best handled in phases as discussed in a call meeting with Warren County. Attached please find our projected budget listing materials needed to complete our plan.

Thank you for your consideration for this project.
